- TC308 Energy Geotechnics of ISSMGE
- Hong Kong Geotechnical Society
- Geotechnical Division of Hong Kong Institution of Engineers

INTRODUCTION

This is the first conference of its kind to cover both *Geo-energy* and *Geo-environment* areas that are highly relevant and essential to maintaining the sustainability of the society. Researchers who are interested in these areas are most welcome to join, to contribute and share new ideas and information, and to advance scientific knowledge for the benefit of mankind.

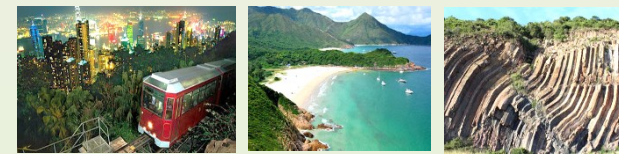

FORMAT OF CONFERENCE

This conference will be featured by

- Two *IAS distinguished lectures*
- Eleven *invited keynote*s
- Extended abstracts*
- Elevator pitch sessions*

Two-page extended abstracts will be included in the 2015 Geo-Energy and Geo-Environment Conference Proceedings. Authors will be notified whether their extended abstract is selected for an oral presentation or a poster presentation. Authors of high-quality abstracts will be invited to extend their abstracts to full papers, which will be reviewed and published as a theme-based volume in an international journal.

Elevator pitch sessions will be organized to encourage authors of submitted abstracts to promote their ideas orally.

THEMES

Geo-Energy

- Energy geo-structures such as piles and walls
- Geo-storages such as CO₂ sequestration and radioactive waste disposal
- Energy extraction application such as conventional and unconventional energy, and geothermal energy
- Energy policy and management relating to geotechnical aspects

Geo-Environment

- Reused and recycled materials for geotechnical works
- Bio-geotechnology such as the use of vegetation and bacteria
- Landfills
- Geo-environmental policy and management
